RE:  Canada Gazette
     Part I, February 2014
     Consultation on Amendments to Industry Canada’s Antenna Tower Siting
     Procedures
     Reference Number: DGSO-001-14

The Town of Ajax provides the following comments:

- **Section 5.1 (Antenna Siting Procedures)** – who are third party tower owners? An example should be provided to give clarity. Also a suggestion would be to set out how a municipality would apply these requirements to third party tower owners.

- **Section 5.3 (Post Communication Construction Time Limit)** – first sentence, after the word ‘authority’s’, add the word ‘default’ before ‘process’.

Overall, the Town of Ajax finds the proposed amendments to be needed. Especially the amendments put forward in **Section 5.2 – Industry Canada's Default Public Consultation Process**, which speaks to improvements to public notifications.

Thank you for providing us with the opportunity to provide comments.
