Dec 1 2015

Clerk of the Privy Council and Secretary to the Cabinet
Langevin Block, 80 Wellington Street
Ottawa, Ontario
K1A 0A3

I am writing on behalf of Micro Service Inc. (MSI) to support Bell Canada’s petition to the Government challenging the CRTC’s decision to begin regulating all-fiber broadband networks.

MSI is a proud Canadian company based in Barrie, Ontario that provides Canadian communications companies and Government departments with antenna installation, maintenance and repair services. For over 30 years, we have been helping customers like Bell, Rogers, the Ontario Provincial Police and Natural Resources Canada enjoy world-class communications services, right here in Ontario.

We support Bell’s request to overturn the CRTC’s fiber networks decision. The Canadian Government should be encouraging network investments in rural areas rather than putting regulations in place that discourage investment.

Bell’s petition makes it clear that any reductions in network investments will hit smaller communities first and hardest. As our company operates in these communities, our customers and employees would feel the negative impact of these reduced investments. We therefore encourage the Government to support broadband infrastructure investment and job creation by reversing the CRTC’s decision.

Yours truly,

[Signature]
